#### GREENLAND

In the context of establishment of the fishery zone off Greenland, the Kingdom of Denmark has established lines of delimitation in relation to other countries (Canada, Iceland, and Norway) and straight baselines from which the fishery zone and territorial sea are measured. Extracts from the texts of Executive Order No. 629 of 22 December 1976 (southern Greenland) and Executive Order No. 176 of 14 May 1980 (northern Greenland) are provided below:

NOTICE NO. 629 OF DECEMBER 22, 1976 ON  
THE FISHING TERRITORY OF SOUTHERN GREENLAND

Pursuant to Article 1 of Law No. 597 of December 17, 1976 on the Fishing Territory of the Kingdom of Denmark, it is provided:-

ARTICLE 1

1. The fishing territory of Greenland shall comprise on the West coast as far as 75° North and on the East coast as far as 67° North, in addition to internal waters, an area of water which is bounded by a line (fishery limit) running at a distance of 200 nautical miles (1 nautical mile = 1852 metres) from the baselines referred to in Article 2.

2. The boundary of the fishing territory in relation to Canada as far as 75° North, shall, where that country's coasts are less than 400 nautical miles from Greenland, be a series of geodesic lines between the following points: . . .

[113 points are then specified. With the exception of Point 1 (the co-ordinates of which are 61°24.7' North, 57°16.3' West), these 113 points are the same as the first 113 points forming the continental shelf boundary between Greenland and Canada, as provided in Article II of the Agreement between Denmark and Canada relating to the Delimitation of the Continental Shelf between Greenland and Canada.]

3. From Point 113 the fishery limit shall be the line of latitude between the following points:

113	75°00'00 N	73°16.3' W
113a	75°00'00 N	59°48.0' W

4. The boundary of the fishing territory in relation to Iceland, where that country's coasts are less than 400 nautical miles from Greenland, shall, in the absence of a special agreement, be the line every point of which is equidistant from the specified points on the baselines along the coasts of the countries concerned (median line) as far as 67° North, and from there shall be the line of latitude running to 67°00'00 North, 32°50.6' West.

ARTICLE 2

The straight baselines (compass lines) or coast-lines, which in accordance with Article 1 are to be used for measuring the fishery limit, shall be drawn between the following points (the low water mark at mean Spring tide) in the order specified:

EXECUTIVE ORDER NO. 176 of MAY 14, 1980 ON  
THE FISHING TERRITORY OF NORTHERN GREENLAND

Pursuant to sec. 1 of Law No. 597 of December 17, 1976 regarding the Kingdom of Denmark's fishery zone, and in connection with Ordinance No. 629 of December 22, 1976, the following provisions are laid down:

Sec. 1. Unless otherwise stipulated below, the fishery zone off Greenland comprises, in the area north of 75° north latitude on the west coast and north of 67° north latitude on the east coast, besides the inner channels, a water area delimited by a line (fishery boundary) which runs a distance of 200 nautical miles (1 nautical mile = 1852 meters) from the base lines mentioned in sec. 2.

Par. 2. The delimitation of the fishery zone in relation to Canada in the Nares Straits north of 75° north latitude, where that country's coasts are opposite Greenland's, at a distance of less than 400 nautical miles, in the absence of any special agreement relating thereto, follows two series of geodetic lines between the following points:

	Point No.	Latitude (north)	Longitude (west)
Series A	113	75°00'0	73°16'3
	114	76°41'4	75°00'0
	115	77°30'0	74°46'0
	116	78°25'0	73°46'0
	117	78°48'5	73°00'0
	118	79°39'0	69°20'0
	119	80°00'0	69°00'0
	120	80°25'0	68°20'0
	121	80°45'0	67°07'0
	122	80°49'2	66°29'0
Series B	123	80°49'8	66°26'3
	124	80°50'5	66°16'0
	125	81°18'2	64°11'0
	126	81°52'0	62°10'0
	127	82°13'0	60°00'0

The delimitation of the fishery zone in Lincoln Sea where the coasts of Greenland and Canada lie opposite each other at a distance of less than 400 nautical miles, in the absence of any special agreement relating thereto, follows the line which from point 127 is everywhere equidistant from the nearest points on the base lines on the coasts in question (the center line).

Par. 3. The delimitation of the fishery zone in relation to Iceland north of 67° north latitude, where that country's coasts lie opposite Greenland's at a distance of less than 400 nautical miles, in the absence of any special agreement relating thereto, follows the line which is everywhere equidistant from the nearest point on the base lines on the coasts in question (the center line).

Par. 4. The delimitation of the fishery zone in relation to Norway, where the Svalbard island group lies opposite Greenland at a distance of less than 400 nautical miles, in the absence of any special agreement relating thereto, follows the line which is everywhere equidistant from the nearest points on the base lines of the coasts in question (the center line). Where the island of Jan Mayen lies opposite Greenland at a distance of less than 400 nautical miles, fishery jurisdiction will not for the present be exercised beyond the line which is everywhere equidistant from the nearest points on the base lines on the coasts in question (the center line).

Sec. 2. The correct lines (the compass lines) or coast lines which, pursuant to sec. 1, form the basis of the calculation of the fishery boundary, run between the following points (the low water mark at medium spring tide) in the indicated sequence:

## c. MARITIME BOUNDARIES

### 1. DENMARK-CANADA CONTINENTAL SHELF AGREEMENT

Excerpts of the Agreement between the Government of Canada and the Government of the Kingdom of Denmark Relating to the Delimitation of the Continental Shelf between Greenland and Canada, which entered into force March, 13, 1974 follow:

# ARTICLE I

The dividing line in the area between Greenland and the Canadian Arctic Islands, established for the purpose of each Party's exploration and exploitation of the natural resources of that part of the continental shelf which in accordance with international law appertains to Denmark and to Canada respectively, is a median line which has been determined and adjusted by mutual agreement.

# ARTICLE II

In implementation of the principle set forth in Article I, the dividing line in the area between latitude 61°00' N and latitude 75°00' N (Davis Strait and Baffin Bay) shall be a series of geodesic lines joining the following points:

The positions of the above mentioned points have been computed from straight baselines along the coast of the Canadian Arctic Islands and of Greenland.

....

For the time being the Parties have not deemed it necessary to draw the dividing line further north than point No. 127 [see above under straight baselines] or further south than point No. 1.

....

### ARTICLE III

In view of the inadequacies of existing hydrographic charts for certain areas and failing a precise determination of the low-water line in all sectors along the coast of Greenland and the eastern coasts of the Canadian Arctic Islands, neither Party shall issue licences for exploitation of mineral resources for exploitation of mineral resources in areas bordering the dividing line without the prior agreement of the other Party as to the exact determination of the geographic coordinates of points of that part of the dividing line bordering upon the areas in question.

....

### ARTICLE V

If any single geological petroleum structure or field, or any single geological structure or field of any other mineral deposit, including sand and gravel, extends across the dividing line and the part of such structure or field which is situated on one side of the dividing line is exploitable, wholly or in part, from the other side of the dividing line, the Parties shall seek to reach an agreement as to the exploitation of such structure or field.

### ARTICLE IV

Should international law concerning the delimitation of national jurisdiction over the continental shelf be altered in a manner acceptable to both Parties which could have an effect upon the dividing line in the area between 67° and 69° North latitude, each of the Parties shall waive jurisdiction over any part of the continental shelf which appertains to the other Party on the basis of the new agreed rules of international law concerning the delimitation of national jurisdiction over the continental shelf.

## 2. DENMARK-NORWAY (JAN MAYEN) FISHING AND CONTINENTAL SHELF AGREEMENT 1995 (excerpts)

The delimitation line between the Parties' part of the continental shelf in the area between Greenland and Jan Mayen is established as straight lines between the following points, in the order indicated below:

POINT	LATITUDE (N)	LONGITUDE (W)
1	74° 21' 46.9"	05° 00' 27.7"
2	72° 49' 22.2"	11° 28' 28.7"
3	71° 52' 50.8"	12° 46' 01.3"
4	69° 54' 34.4"	13° 37' 46.4"

The boundary between the fishery zone around Jan Mayen and the fishery zone around Greenland coincides with the delimitation line specified [above].
